MATERIAL SAFETY DATA SHEET**HAZARDOUS MATERIAL IDENTIFICATION SYSTEM**
HMIS HAZARD INDEX **HMIS RATINGS**4=Severe
3=Serious
2=moderate
1=Slight
0=MinimalHealth-----2
Flammability---0
Reactivity-----2

Personal Protection---Use eye & skin protection. Use lung protection when spraying

SECTION 1--- PRODUCT IDENTIFICATION

Product Name	ETCH-CORR
Product Use	Rust conversion coating
Chemical Name	Phosphoric Acid Solution
Supplier	Wesmar 1440 NW 45 thSt Seattle Washington 98107
Emergency	Phone 206-782-8186 Fax 206-789-1412

SECTION 2 --- HAZARDOUS INGREDIENTS

Phosphoric Acid	7 to 13%	CAS # 7664-38-2	LD 50 2.74g/kg of rat
			LC 50 no data available because phosphoric acid is not volatile
2-propanol	3 to 7%	CAS #6763-0	LD 50 5.89 g/kg rat
			LC 50 23000 ppm/8 hr
Zinc (as elemental zinc)	10 to 20 gm per liter	CAS# 007440666	

SECTION 3 --- PHYSICAL DATA

Physical State	Liquid
Appearance & Odor	Green, transparent with alcohol scent
Odor Threshold	Not applicable
Boiling Point (Deg. C)	Above 100 Deg C
Vapor Pressure (mm Hg)	22@ 23C
Vapor Density(Air =1)	Not applicable
Specific Gravity	1.1
Evaporation Rate	Similar to water
Solubility in Water	Soluble
Freezing Point (Deg C)	Less than 0C
pH	1.5 +/- 0.5
Coefficient of Water Oil Distribution	It is water soluble, but not oil soluble.

Page 2 of 3**SECTION 4 --- FIRE AND EXPLOSION DATA**

Flash Point	Not applicable
Auto Ignition Temperature	Not applicable
FLAMMABLE LIMITS (%)	Not applicable
CONDITIONS OF FLAMMABILITY	Not applicable
EXTINGUISHING AGENTS	Not applicable
FIRE FIGHTING PROCEDURES	Not applicable
UNUSUAL FIRE & EXPLOSION HAZARD	Not applicable

SECTION 5 — REACTIVITY DATA

Stability	Stable in plastic container	
Incompatibility	Avoid strong bases and reactive metals	
Condition Of Reactivity	Avoid strong bases and reactive metals	
Hazardous Decomposition products	None	Known

SECTION 6 — TOXICOLOGICAL PROPERTIES

Route of Entry	Skin, eye and lung contact and ingestion
Acute Effects of Overexposure.	Will cause eye damage with contact. Will cause skin damage with contact.
Chronic Exposure	Dermatitis, damage to eye tissue, vapor is corrosive to respiratory tract
LD50 of product	Not available
LC50 of product	Not available
Irritancy of Product	Will cause skin and eye irritation with prolonged and repeated contact.
Sensitization To Product	Prolonged heavy use and repeated contact may lead to sensitization.
Carcinogenicity	Not known to be carcinogenic
Mutagenicity	Not known to be mutagenic
Synergistic Products	None known

SECTION 7 — PREVENTATIVE MEASURES

SPECIAL PROTECTION INFORMATION

Use local exhaust if necessary to maintain "Permissible Exposure Limit" or "Threshold Limit

Page 3 of 3

SECTION 7 — PREVENTATIVE MEASURES

SPECIAL PROTECTION INFORMATION

Use local exhaust if necessary to maintain "Permissible Exposure Limit" or "Threshold Limit Value". If used in applications where a mist may be generated, observe a PEL of 7 mg / cubic meter.

Respirator	Aerosol type
Protective Gloves	Acid resistant
Eye	Safety glasses or Face Shield
Other Protective Equipment	Not applicable

Procedure for Spill Clean-up:

Dyke up large spills. Absorb with inert material such as vermiculite. Neutralize with sodium carbonate or sodium bicarbonate (baking soda).

Waste Disposal:

Follow all applicable federal, provincial, and local regulations.

Storage Requirements:

Store at room temperature in a dry place away from alkaline materials

SECTION 8 — FIRST AID MEASURES

Eyes	Flush with clean water for at least 15 minutes and call physician.
Skin Contact	Wash with soap and water.
Inhalation	Remove victim to fresh air and call a physician.
If Swallowed	Give milk! Call physician immediately.

SECTION 9 — TRANSPORTATION DATA

Proper Shipping Name	Corrosive Liquid NOS Phosphoric Acid
	Solution Class 8
UN Number	UN1805 PG3
CAS Number	13598-36-2
Special Transportation Notes	Not applicable

SECTION 10 — WHMIS HAZARD CLASSIFICATION

Whmis Hazard Classification

Class 8

SECTION 11— PREPARATION DATE OF MSDS

Prepared by Paul Blattler PhD

December 19, 2005
